## Receive Free Freight Upgrades When You Order From Weber Scientific!

When you order from Weber Scientific we will route it so that all of your order arrives at your facility within 1, 2 but never more than 3 business days. Any upgrade in the level of service over basic UPS or FedEx ground service will be done at **our expense - not yours!**

Combined with our **Same Day Shipping Pledge**, this expedited routing program will insure prompt delivery to any location in the continental U.S.—all at no extra cost.

### Here is how the 1-2-3 Day Delivery program works:

Place your order by 3:00 PM (Eastern Time zone) and your order will ship that very same afternoon.

Based on UPS delivery schedule (see map) your order will be routed via basic ground service if delivery is scheduled at 3 business days or less. If the UPS delivery schedule indicates more than 3 business days, we will upgrade your order to 3 Day Select service at no extra charge to you. You pay only for basic ground or hundredweight service.

Does not apply to orders routed by common carrier.

## Free Samples

Would you like to evaluate a sample before you order? Simply contact us and request by item number and mention "free sample".
